OUR HISTORY

A RIPENING TRADITION OF GOOD TASTE

- The fascination for wines started in the middle of 1970
- This was pursued by founders Klaus and Kitt Schroeder by starting to purchase wines from Germany through personal connections for personal consumption. It did not take long before they had to share the humble stash with friends and friends of friends.
- In 1986, after import prohibition was lifted, they decided to pursue commercial wine distribution. As a part time enterprise the business operations professionalized with its incorporation in 1992.
- **Brumms Quality Wines Inc.** started its portfolio with a modest hand picked choices of German wines that expanded to personally selected wines from world class winemakers from Germany, Austria, Romania, Chile, Argentina and New Zealand.
- In line with our quest for the tradition of good taste, the import of a most prestigious water from New Zealand came to reality in **2014**. **ANTPODES** a natural living water that does not interfere with the palate when consumed alongside fine wine, coffee and food was a perfect choice to be added to our product portfolio.
